

Section 811 is an important business opportunity for our members and their employees. As you are probably aware, the domestic apparel industry is under severe stress as a result of imported products and we look forward to this new market (formerly closed to us) in which to compete.

Thank you on behalf of the members of Atlantic Apparel, and their employees who desperately need help.

Very truly yours,

Arnold Delin  
Executive Director  
Atlantic Apparel Contractors Association, Inc.
